DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 5-7, 14 are rejected under 35 U.S.C. 102(e) as being anticipated by Stucchi et al.

Stucchi et al disclose a BEOL metal element (17)(abstract), a conductive shield element (3), a substrate (9), and capable of functioning as claimed (re claim 1).

Re claims 5-7, 14, see Fig 4.

Allowable Subject Matter

Claims 2-4, 8-13, 15-33 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The following is an examiner's statement of reasons for allowance:

The limitation "shield element is dynamically driven to the same electrical potential" of claims 2, 15, "a BEOL upper inductor element" of claim 8, "a BEOL metal insulating metal capacitor" of claim 19, "a BEOL wire bonding pad" of claim 24, "a BEOL stable bias line for a memory" of claim 29 in combination with other limitations present is neither taught nor disclosed in the prior art of record.
